EXPERIENCE

- JP Morgan Chase & Co.** Bengaluru
Data Science Analyst - FAST Team Jul 2024 - Present
 - Identified **7+ potential customer PII compliance issues** and designed and deployed a **Tableau dashboard** integrated with an **Alteryx data pipeline** to proactively track and flag risks, supporting **FDIC compliance**.
 - Analyzed **affluent customer** transaction patterns across Chase Financial Centers to assess **multi-channel performance and customer segmentation**; insights were included in firm-level affluent strategy materials reviewed by senior leadership, including the **CEO of Consumer & Community Banking** and the **CEO of JPMorgan Chase**.
 - Partnered closely with the **Connected Commerce team** to design and build a **cross-workstream data asset** enabling **end-to-end customer journey analysis** across **7 workstreams**—to support **commerce strategy, personalization, and product integration initiatives**.
 - Integrated data spanning **25+ Chase products and services**, creating a unified view of customer engagement across commerce ecosystems.
 - Conducted **50+ stakeholder and user interviews** to define data requirements, key metrics, and high-impact use cases for cross-commerce integration.
 - Analyzed **customer behavior** across Revenue Generators and Revenue Enablers, uncovering **engagement patterns and monetization opportunities** & Applied **clustering and segmentation** techniques on customer transaction and engagement data to enable targeted insights and strategic decision-making.
 - Developed an agentic AI-based competitive intelligence system leveraging LLMs to ingest and summarize external wealth management news, and integrate insights with internal performance data to surface emerging trends and strategic opportunities.
 - Handled **ad-hoc analytics and quick-turnaround tasks** to support **Chase's Affluent Strategy** in the Wealth Management space.
 - Co-led the Training Committee**, creating a **centralized repository for all training materials** and **leading induction and integration programs** for new team members.
- JP Morgan Chase & Co.** Bengaluru
Data Analyst Intern - Marketing D&A Team Jan 2024 - Jun 2024
 - Built and delivered **interactive Tableau dashboards** by integrating data from **SQL and SAS**, and developed a **custom SAS Viya user tool** with an **HTML-based input form** to allow team members to programmatically trigger Unix queries and SAS workflows.
 - Automated **campaign performance reporting** using **SAS Tasks-based email triggers**, improving **timeliness and efficiency of marketing insights delivery**.

SKILLS SUMMARY

- Languages & Tools:** Python, SQL, Tableau, Alteryx, SAS, Git, AWS, HuggingFace, C++, R
- Fields:** Regression, Classification, Clustering, Hypothesis Testing, A/B Testing, Feature Engineering, LLM pipelines, HuggingFace, Agentic AI workflows, Customer Segmentation, Stakeholder Management, Strategy Analytics, Business Intelligence
- Certifications:** AWS Certified Cloud Practitioner(CCP), NPTEL - Data Science for Engineers

PROJECTS

- Movie Recommender System**  : Built a content-based recommendation model using cosine similarity on user-item features, improving recommendation relevance compared to popularity-based baselines. Evaluated performance using precision@k and qualitative user validation. Technologies Used: Python, Machine Learning, Scikit, Streamlit (Nov, 2022 - Dec, 2022)
- Credit Card Fraud Detection**  : Developed a supervised classification model to detect fraudulent transactions, addressing class imbalance and optimizing precision-recall tradeoffs. Achieved improved recall for minority fraud cases compared to baseline models. A face recognition module was further implemented using openCV as a second layer of security. Technologies Used: Python, Machine Learning, Scikit, OpenCV (Aug, 2022 - Nov, 2022)

EDUCATION

- Vellore Institute of Technology** Vellore, India
B. Tech. - CSE with Specialization in Blockchain Technology; CGPA: 9.06 Sep, 2020 - Jul, 2024

REWARDS & RECOGNITION

- Team Award & Innovation Champion - JP Morgan Chase & Co.:** Received the award for building and deploying a team website in a short turnaround, improving team branding and engagement. (Q3, 2025)
